## What we are about

### NATURAL SWEETENERS

The delicious sweetness you will taste is drawn from pure Canadian Maple Syrup, raw local honey, organic dried fruit, organic coconut, and coconut nectar, not from the refined type.

### GOOD FATS ONLY

You get only the good fats, the ones which are pure and good for you. We use coconut oil, organic butter, and extra virgin olive oil.

### ETHICAL ANIMAL PRODUCTS

All our animal products have been ethically sourced. They are free-range, pasture fed and, wherever possible, locally raised.

### WASTE-FREE

When we are not supporting local farms and markets, we are making what we can from scratch, minimising our packaging.
